MIDEA LIGHTING

MIDEA LIGHTING

Midea Intelligent Lighting & Controls Technology Co., Ltd
Add ：NO.1 industrial Estate,Guixi City,Jiangxi,China
Web ：www.mdlighting.com

Company reserve the right to change product design an specifications,print products have deviation with real images,select a product in kind prevail,at the appointed time without prior notice!

1

Three color options

Suitable for dierent decoration
Applicable to various scenarios

Integrated multi-joint frame

2

One-piece structure of frame for enhanced aesthetic
Universal panel and function keys for customized configuration as required

3

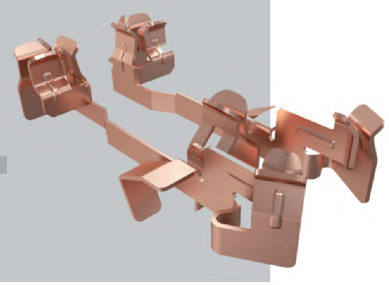
Selected PC material

Strong and dense, resistant to 850°C high temperature and flame retardant, not easy to deform, safe use, long service life

Selected Sn-P bronze

4

Better conductivity
Not easy to deform, more durable



16AX | Meet the national standards

Instantaneous current bearable
Safer LED with high power

20000+

Life cycle of mechanical
Over 20,000 times

15000+

Five hole socket and five hole socket with switch have obtained the 15 ,000 times plugging of public socket * approval certificate

Three times higher than national

* One time means turn on and turn o one time or plug in and pull out one time

5

Stringent tests, quality assurance

All processes have passed Midea's rigorous tests to guarantee electrical safety

Firm metal base

CE Certification

Larger terminal block
Thicker and larger mounting hole

Sn-P bronze socket current-carrying

6

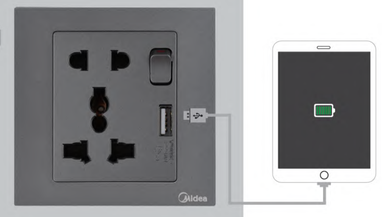
Honeycomb structure, large pole connection terminal

Grid design and stiener, safer and not easily deformable
Larger wiring capacity, convenient and secure cabling

USB port is available

7

Compatible with various charging devices
Safety compliance to ensure safer and more reliable operation



STAR
UK SERIES

High-temperature resistant

Large space between socket holes

Small angle

Child protection

Fluorescent grid point

Impact-resistant honeycomb structure

Switch Series

STK11 STK12
